OBJECTIVES

A self-disciplined and fast-learning student seeking a front-end development internship for May 2025. This opportunity will be an important step in transitioning from coding to programming, allowing me to contribute my problem-solving skills and creativity to the success of the team.

EDUCATION

DEC in Computer Science Technology - Programming   Montreal, QC
LaSalle College
Jan 2023 - May 2025

PROJECTS

PORTFOLIO - PERSONAL WEBSITE ⬈   TypeScript, Vite, Ant Design
Sep 2024

- Developed a responsive website using component-based architecture for scalable and reusable code, ensuring efficient future updates.

- Integrated Ant Design and Parallax.js, enhancing user experience. Deployed on GitHub Pages with Vite's build command, optimizing static assets for faster load times.

FAST FOOD DELIVERY WEB APPLICATION ⬈   React, React Bootstrap, SQL Server, C#
Jun - Jul 2024

- Designed and developed 6+ front-end components from scratch for user and account management using React.

- Implemented API integration to fetch and display dynamic data for orders, feedback, and account details.

- Collaborated with 3 teammates to plan the project and manage expectations, ensuring clear communication and effective project management.

KIDS' LEARNING WEB APPLICATION ⬈   PHP, MySQL, CSS
Mar - Apr 2024

- Implemented 10+ front-end components and used AJAX for validation in user authentication processes, ensuring an informative experience for the user during interactions.

- Developed a structured program architecture to maintain clear separation of concerns and enhance code maintainability.

LANGUAGES

- **French:** Intermediate

- **English:** Fluent

TECHNICAL SKILLS

- Languages: Java, C#, JavaScript, PHP

- Web Development: HTML, CSS, React, React Bootstrap, Vite, ASP.NET Framework

- Technologies: Swagger UI, Git, SQL Server, SQL Developer, MySQL, SQLite, WordPress, WAMP Server

- Concepts: Web Applications, Front-end Development, Database Management, Data Structures & Algorithms

- Design Tool: Figma
